

WITHOUT ADDED PRESERVATIVES
OR COLORANTS

FORMULATED BY
EXPERT NUTRITIONISTS

AVAILABLE PACKAGING SIZES:
3 kg / 12 kg

1st INGREDIENT:
MEAT

WITH OLIVE EXTRACT,
A NATURAL ANTIOXIDANT

WITH YUCCA FOR
STOOL ODOR CONTROL

HIGHLY PALATABLE
RECIPE

WITH FOS FOR
INTESTINAL WELL-BEING

WITH GLUCOSAMINE
TO SUPPORT JOINT FUNCTION

COMPLETE DRY FOOD FOR DOGS

WITH

BEEF AND RICE

COMPOSITION

Meat and derivatives 34% (beef 8%), cereals (rice 4%), plant-based by-products (dried beet pulp 4%), oils and fats, minerals, sugars (fructooligosaccharides - FOS 0.3%), molluscs and crustaceans (glucosamine from hydrolysed crustacean exoskeletons 0.03%), dried and powdered Yucca schidigera stalk 0.03%.

ANALYTICAL COMPONENTS

Crude Protein 27.0%, Crude Fat 14.0%, Crude Fibres 3.0%, Crude Ash 9.0%, Calcium 2.0%, Phosphorus 1.5%. Metabolizable energy: 3640 kcal/kg

ADDITIVES

Nutritional additives: Vitamin A 7,500 IU/kg, Vitamin D3 500 UI/kg, Vitamin E 55 mg/kg, Vitamin B1 1 mg/kg, Vitamin B2 2.7 mg/kg, Vitamin B6 0.8 mg/kg, Vitamin B12 0.02 mg/kg, Niacin 9 mg/kg, Folic acid 0.13 mg/kg, Calcium D-pantothenate 6.5 mg/kg, Iron sulphate (II) monohydrate (Iron: 25 mg/kg), Copper sulphate (II) pentahydrate (Copper: 5 mg/kg), Manganese sulphate monohydrate (Manganese: 2.5 mg/kg), Zinc sulphate monohydrate (Zinc: 32 mg/kg), Coated granulated calcium iodate anhydrous (Iodine: 0.8 mg/kg), Coated granulated sodium selenite (Selenium: 0.07 mg/kg).

Technological additives: Antioxidants. Sensory additives: Olive leaf extract (Olea europaea L.) 800 mg/kg

RECOMMENDED DAILY FEEDING INTAKES

Animal Weight (kg)	Daily feed amount	
	Low Activity*	Moderate Activity*
10	140	165
15	190	220
20	240	275
25	280	325
30	320	375
40	400	465
50	470	545
60	540	625

Low Activity: < 1h/day;
Moderate Activity: 1-3 h/day

Complete, balanced dry food for adult dogs of all breeds. Prepared with selected ingredients, it contains beef protein, rice, beetroot pulp, glucosamine, fructooligosaccharides, yucca schidigera and olive extract. Beef cotanins high-quality protein, Rice provides easy-to-digest carbohydrates and Beetroot Pulp is a source of food fibre which helps to maintain good bowel transit.

Olive extract contains polyphenols, useful natural antioxidants, responsible for the numerous beneficial effects of olive products, the main component of the Mediterranean diet.

Glucosamine is an aminopolysaccharide, which is a combinaton of an amino acid (glutamine) and a sugar (glucose) which naturally occurs in joints. Glucosamine helps to maintain physiological joint function.

FOS - Fructooligosaccharides help to promote the balance of intestinal flora by stimulating the growth and activity of beneficial gut bacteria.

FOS are prebiotics, non-digestible food components that reach the colon intact and act in two ways: on the one hand, they draw water into the colon and hydrate the intestinal tract, improving its function,

and on the other hand, they regulate the digestion of sugars and lipids ingested in the diet. Yucca is a tuber that combats intestinal fermentation and helps to keep faeces and urine odour under control.

Daily use of TRIPLO PET FOOD® with BEEF and RICE helps to reinforce your dog's physiological condition, keeping it active, in excellent physical shape, with a thick, glossy coat.

INSTRUCTIONS FOR USE

Administer the product according to the recommended ration in the table, leaving fresh, clean water available at all times. The quantities shown are purely indicative as they may vary depending on the size of the animal, its level of activity and the environmental conditions in which it lives. A change in diet must be gradual. We recommend gradually increasing amount of product daily to achieve the quantities indicated in the table in a week. The daily ration can be divided into two feeds.
